Total required for B.S. degree in business administration – 14 courses (minimum of 50 credits)

Basic Math and Computer Literacy Skills

Basic math and computer literacy skills: Students in the program are expected to enter with basic math and computer literacy skills.

Students may demonstrate basic math skills in one of the following ways: Math SAT score of 650 or higher, Calculus AP Exam score of 4 or higher, or passing a business math test offered by the business department with a score of 75% or higher. Students are required to pass the business math test even if they transfer in a college-level math course. For a fee students may take an online refresher course combined with the business math test. Although it is expected that most students will be able to pass the test with the online refresher course. Contact the

department chair for the registration directions and further information about the business math test.

Students are expected to have completed an introduction to computers course or have the equivalent knowledge before taking BUS 243.

Many aspects of the business administration major must be completed sequentially.

- Students must have basic computer literacy, as described above, prior to BUS 243.
- ECON 222, MATH 112, and BUS 243 must be completed prior to BUS 332 and BUS 347.
- Students must pass the business math test with a grade of 75% or higher (or otherwise demonstrate requisite quantitative competency as described above) prior to BUS 332 and BUS 347.
- Students must complete BUS 215, BUS 246, BUS 249, BUS 324, BUS 332 and BUS 347. with at least a C- before taking the capstone BUS 449 course.

NOTE: *business administration majors may not count courses taken at other institutions to satisfy their BUS 300 or 400-level requirements.*
