ACADEMIC RESOURCES

An array of information and technology resources, programs, services, and learning spaces enhance Guilford's unique learning experience, The Edge. Core academic support services are provided within the Hege Academic Commons, and Information Technology and Services (IT&S) provides critical campus technical and network access support. Formal and informal learning spaces further a culture of collaboration, creativity, and innovation. In addition to the Hege Academic Commons, these include spaces within classroom buildings; Founders Hall; the Ragan-Brown Field House; Frank Family Science Center; and Sternberger Auditorium, Hege-Cox Hall, and Dana Auditorium performing and fine arts spaces. Guilford's First Year Experience lays the foundation for student academic excellence and success.
